

SECURE, RELIABLE AND FLEXIBLE SOLUTION

Today organizations are increasingly looking to new business solutions to help create competitive advantage, and simply build better businesses. However, many organizations face barriers to implementing new technologies, no matter how critical to internal business processes.

The advent of high speed Internet access and flexible hosted applications have enabled Unified Software to meet this growing need with ALBACORE service.

From an end user perspective, ALBACORE is attractive because it enables them to simultaneously minimize costs and maximize performance. ALBACORE allows customers to purchase Unified Software applications on a subscription, or "pay as you go" basis. This will dramatically reduce the upfront costs and enable the immediate recognition of value.

ALBACORE SERVICE OVERVIEW

FULL-FEATURED ON DEMAND SOLUTION

Unified Software provides small and midsize transportation service providers with comprehensive, integrated applications that combine the ability to provide transportation services and manage the business process online, over a hosted secure network – supported by world-class IT talent, available 24 hours a day.

SECURE AND RELIABLE ENVIRONMENT

Unified Software will provide the physical infrastructure; including servers, storage devices etc. Ongoing monitoring and maintenance of the applications on a 24 hours a day, seven days a week basis, and Software upgrades to the application as they are rolled out.

GUARANTEED QUALITY OF SERVICE

Wrapped around all these components is a service level agreement (SLA) that includes pricing information and guarantees quality of service levels for uptime, application performance, and customer support. We guaranty 99% uptime for the applications.

USER BENEFITS

LOWER COST OF OWNERSHIP

Because the software is paid for as it is consumed, there is no large upfront cost for a software license. No hardware infrastructure is required; the user spends less on hardware, maintenance, and administration.

FOCUS ON CORE COMPETENCY

The customer no longer has to devote internal IT resources to application maintenance. In addition to saving on costs, this allows the customer to remain focused on their core competency and utilize resources in more strategic areas.

ACCESS ANYWHERE

Users can use their applications and access their data anywhere they have an Internet connection and a personal computer with ALBACORE client. This enhances the customer experience of the software and makes it easier for users to get work done.

FREEDOM TO CHOOSE

The pay-as-you-go nature of ALBACORE enables greater flexibility in terms of technology choices. Users can select applications they wish to use and to stop using those that no longer meet their needs.
